Air bottle, volume/pressure ¹¹⁾	dm ³ /bar	—	—	2000/30

1) Exhaust emissions with oxidizing catalyst:

NO_x < 0.50 g NO₂/m_n³ dry exhaust gas at 5% O₂

CO < 0.30 g CO/m_n³ dry exhaust gas at 5% O₂

Formaldehyde < 0.06 g/m_n³ dry exhaust gas at 5% O₂

2) Engine power ratings and combustion air volume flows acc. to ISO 3046/1

3) Intake air flow at delta T = 15 K including combustion air

4) Including pipes, heat exchangers and base frame oil pan

5) At full load

6) At 50 Hz, U=0.4 kV, power factor=1

7) At 40 or 38 °C water inlet (50 °C for biogas)

8) With a tolerance of +5%

9) The Kvs-value is the parameter for the pressure loss in the cooling system (= flowrate for 1 bar pressure loss)

10) Inlet/outlet

11) Option air starter motor for V20

Data for special gas and dual gas operation on request.

The values given in this data sheet are for information purposes only and not binding.

The information given in the offer is decisive.

Dimensions 50 Hz		TCG 2020 V12		TCG 2020 V16		TCG 2020 V20

Exhaust noise in 1 m, <math>\angle 45^\circ, \pm 2.5 \text{ dB(A)}

Air-borne noise at 1 m from the side, $\pm 1 \text{ dB(A)}$

*Values apply to natural gas applications, measured as noise pressure level.

Characteristics:

State-of-the-art 12, 16 and 20 cylinder V-engines | Air-fuel turbocharging and two-stage intercooling | Single cylinder heads with four-valve technology | Centrally arranged industrial spark plug with intensive plug seat cooling | Microprocessor-controlled high-voltage ignition system | One ignition coil per cylinder | Electronic control and monitoring of genset operation through TEM | Exhaust emissions controlled according to combustion chamber temperature

Your benefits:

- Package of favorable investment and low operating costs.
- Low energy consumption thanks to maximum primary energy utilization.
- Long service intervals and ease of service guarantee additional cost savings.
- Efficient energy conversion with outstanding performance.
- Intercooling permits maximum power even when using gases with low methane numbers.
- Reliable control and monitoring with high safety standards ensure optimum combustion and maximum engine protection.
- All governing, service, control and monitoring functions are easy and comfortable to operate.
